

Passivhaus & Embodied Carbon webinar

passivhaustrust.org.uk/event_detail.php

Date: 25 May 2022 **Time:** 13:00 - 14:45

Location: Online **Cost:** PHT members: £30+VAT, Non members: £45+VAT

Radically reducing operational energy is what the Passivhaus standard does well, but what about embodied carbon?

Join the Passivhaus Trust to explore the relationship between Passivhaus and embodied carbon. The session will open with the launch of the Trust's Embodied Carbon paper, followed by engaging presentations from key experts.

It is an excellent opportunity to learn first-hand from industry practitioners as they share real-life case studies and valuable lessons learnt. Get your burning questions ready and be the first to hear the latest research on Passivhaus and embodied carbon.
