

2021

South Pacific Passive House

CONFERENCE AND TRADE SHOW

Home	Venue	Programme	Primer	Clinic	Cost	Registration	Gala Dinner	Contact form	
----------------------	-----------------------	---------------------------	------------------------	------------------------	----------------------	------------------------------	-----------------------------	------------------------------	--

This is a workshop for Certified Passive House Designers/Consultants. This year, we are advancing PHPP skills.

Focus topics:

- High performance detail use in projects - funny slabs - 3D and junctions
- Kitchen direct extract in PHPP
- Additional Ventilation sheet fun
- Non-residential projects - where to start the long journey
- EnerPHit - standard, component and step-by-step approaches

PHPP v9 required!

Jason Quinn will guide you through the day.

Do not miss your chance of talking to an expert with years of experience about topics that are of vital importance for successful Passive House projects!

The Passive House Clinic is scheduled for
Thursday, 25 November 2021 - 10:00am - 4:00pm
The day is fully catered for your convenience.

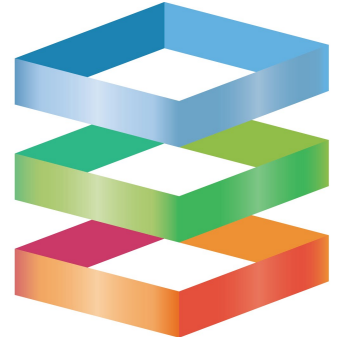

General familiarity with Passive House and PHPP is assumed - the Clinic is not for beginners!
